ARTIVIVE

AR ART EXHIBITION ON-DEMAND

Characters and Concepts

SUMMARY

Characters and Concepts

Characters and Concepts is a collection of illustrations inspired by Benjamin Mitchley's animation, comic book, Inktober and daily sketch creations. His original ink drawings and daily sketches are scanned and digitally coloured. His digital illustrations created on an interactive monitor also form part of this collection.

Technology plays an integral part in his creative process and he is always looking for and experimenting in new ways to enhance his artwork. Augmented reality has made it able to look at his artwork differently. The Artivive app has allowed him to link an animation or create visual depth perception with static image layers in front of

these artworks.

When looking at the artwork through the Artivive app using a smartphone or tablet device, these animations and image layers creating visual depth become visible.

"The moment in my work I leave to the viewer to interpret. As each interpretation might be different, I believe each to be true."

Artworks: 36

Format: A4 or A3 (297mm x 210mm or 297mm x 420mm)

Featured artist: Benjamin Mitchley
