# SUMMARY

## THE LITTLE PRINCE

A mysterious forest, trees and fairy lights everywhere, fog spilling on the ground and a smell that is going to tickle your nose. In this exhibition by the famous artist Eliška Podzimková, visitors will find themselves in magic world of the Little Prince.

The unique and original exhibition will include pictures of the new Little Prince book illustrated by Eliška. The artists spent two weeks traveling around Iceland to get inspired by the breathtaking nature of the island.

In this interactive exhibition, visitors will be able to bring Eliška's illustrations to life through Augmented Reality with the Artivive app.

"The concept of the exhibition is to create the magical world of the Little Prince, which impresses not only the eyes but also other human senses. The main goal is to cut off the visitors from everyday life and return them to childhood for a while," reveals Eliška Podzimková.
