AR ART EXHIBITION ON-DEMAND

Disappointed Wildlife

SUMMARY

DISAPPOINTED WILDLIFE

Disappointed Wildlife is a project conceived, curated and designed by Andrea Braga. 15 extraordinary animators and 3 exceptional sound designers were tasked to bring to life 15 illustrated portraits of just some of the many animal species at risk of extinction conveying their disappointment and drawing attention to their endangerment. Disappointed Wildlife focuses on a small group of endangered animals, divided into five categories: Savanna, Arctic, Rainforest, Mountains, and Marine. They may look disappointed in the artwork, but it's a way of asking us to take responsibility for their survival.
