AR ART EXHIBITION ON-DEMAND

Districted Area

SUMMARY

Characters Of Mutation

The artist is curious what people in her surrounding think about headlong virtual changes in 2021, that is why she started a research in the 17th district in Vienna, Austria. These works are focused on the idea of blending two dimensions – fiction and reality – into a given information medium, derived from neighbours' prognoses about the digital age.

The visual outcome of her research is an in-between world, where virtual entities occupy the realm of urban space, translated through an augmented reality experience.
